

16 August 1972

MEMORANDUM FOR: Mr. Harry B. Fisher
Director of Personnel

SUBJECT :

Attached is a self-explanatory note I have just received from Mr. W. Richard Smyser in Cambridge, Massachusetts concerning a of Brookline, New Hampshire who has apparently filed an employment application with our office or recruiter in Boston. I know nothing about but have known Mr. Smyser for several years. He is a Foreign Service officer who became one of INR's leading Vietnam specialists. In about 1969, he was detailed to the White House to work on Dr. Kissinger's staff. He is currently on a year's sabbatical at MIT. His note, I think, speaks for itself and is forwarded for whatever use it may be to your evaluation of application.

George A. Carver, Jr.
Special Assistant for Vietnamese Affairs
